Expected Date:	
Collected Date	Age Group:

## UNIFORM SIZING CHART

### STEP 1.

Lay a comfortable fit singlet or Tshirt (one that would feel good to play basketball in) on a flat surface and smooth it out. (Do not take measurements off the body - measuring off a top is much more accurate).

### STEP 2.

Measure the flat length (measurement A) of the singlet/ T shirt by measuring from the top of the shoulder to the bottom of the hem, as per diagram.

### STEP 3.

Measure the flat width (measurement B) of the singlet / T short by measuring across the chest from one side seam to the other at about 5cm below the arm hole, as per diagram.

### STEP 4.

Cross reference the A & B measurements to the chart below to find the most likely size match.

SIZES	A	B
4XS	56cm	40cm
3XS	59cm	42cm
2XS	65cm	45cm
XS	68cm	47cm
S	70cm	48cm
M	74cm	52cm
L	77cm	54cm

Note: Sizes are approximate and minor variations can occur.

### SHORTS

- Shorts sizes generally match up to singlet sizes
- Shorts are a baggy basketball cut
- Shorts waistband is well elasticised and also has strong cord tie
